

Governments of the embassies

It is no longer a secret that our Arab and Islamic countries are run by the American embassies and that the American ambassador in any of our plundered country is the de facto ruler, so it was necessary for the Algerians to wait for the American ambassador in Algeria statement about the health status of the Algerian president to know his fate and determine according to it their fate within the possible options permitted by America and the outlines drawn by the American ambassador, the de facto ruler of Algeria.

Bouteflika has been away from the presidency for more than one month it is like the story of Houari Boumediene, after he reached the longest period of ruling Algeria which is 13 years, to go out from the door which he entered from by assassination or coup, is the philosophy of the military in ruling this poor people, since the apparent withdrawal of the French occupation from Algeria 50 years ago.

The statement of the American ambassador that America is ready to deal with any constitutional institution, as have been reported by the Algerian media, confirms the end of Bouteflika at least politically, and the Algerians standing at a crossroads either a revolution on the current situation and the correction the course after lean years of wandering between the East and West or submitting to the military and the death squads that showed their ugly head recently in Oum El-Bouaghi east of Algeria when the gangs of Tawfiq and Tirtaq deliberately stabbed with knives the peaceful demonstrators in the public squares, in broad day lights, and many of them are still lying in the hospitals, which has not been mentioned in the Algerian media that are aware of the change of the policy and the permitted freedom space in such circumstances.

The delay of the declaration of the death or the end of Bouteflika politically is mainly due to the absence of the American green light for the candidate of the military who will only be one of the old miserable faces, that will be summoned once again from Paris or London, not to lead Algeria to safety or meet the aspirations of the youth who are rebelling against the oppression and marginalization, but ensure the flow of the petrol and Algeria in the required quantity and the price set in New York and Paris.

How much is the conduct of the Western embassies disgusting in general and the American or French in particular in our doomed capitals, how much is it distressing the lines of the quasi-men who are in the highest posts in our bereaved countries, on the thresholds of these dens, asking for the satisfaction of the vampires, to bully on their peoples and plunder its riches under the umbrella of the embassies and the cover of the military bases, that are spread in our occupied countries from the ocean to the ocean.

The time has come for this generation to be liberated from the illusion of the Western hegemony, after they saw with its own eyes the vulnerability of the American army and its defeat before the youth of sacrifice and martyrdom; it only needs to return to the source of its pure Aqeeda and taking the reasons of power according to their capability, to see the collapse of the universal evil system with their own eyes and take its leading role once again to be a witness on the people and the messenger peace and blessings of Allah be upon him be a witness on them (and Allah is the master of His affair, but most people do not know).
